ABOUT US

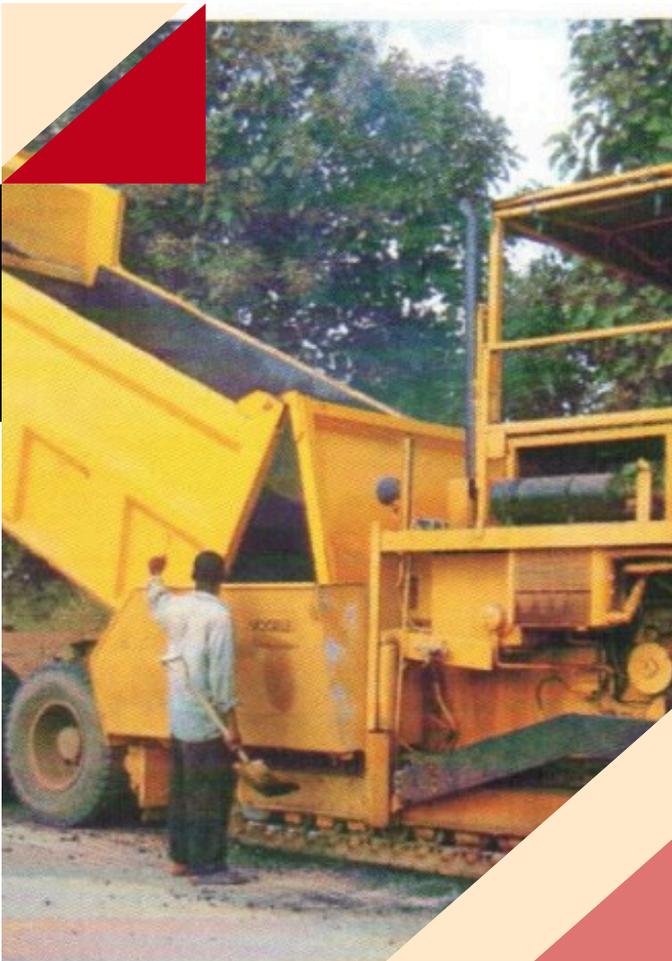

TAEWOO CONSTRUCTION is the building & road construction delivery arm of TAEWOO LIMITED, responsible for providing end-to-end construction solutions for residential, commercial, industrial, institutional, and roadway infrastructure. With a strong foundation in engineering excellence and decades of combined field experience, the division focuses on delivering durable, efficient, and cost-effective structures and roads that meet Nigerian and international construction standards.

Our mandate is to execute high-quality civil works, structural projects, and urban infrastructure developments with precision, safety, and unquestionable integrity.

Our commitment to quality, safety, and client satisfaction has earned us the trust of major corporations, government agencies, and international organisations. We are proud to contribute to Nigeria's infrastructure development and economic growth.

OUR VISION

To be Nigeria's most trusted and innovative construction company, recognized for delivering world-class building and road infrastructure projects that transform communities, connect cities, and drive economic growth. We envision a future where our constructions set new standards for quality, efficiency, and environmental responsibility.

OUR MISSION

To provide exceptional building and road construction services that exceed client expectations through quality workmanship, innovative solutions, and unwavering commitment to safety and sustainability. We aim to build structures and road networks that stand the test of time while contributing to Nigeria's infrastructure development and economic growth.

OUR CORE VALUES

Our core values guide our construction practices, shape decisions, and drive our commitment to delivering safe, durable, and high-quality projects with professionalism and integrity.

01

Integrity

We uphold ethical construction standards, ensuring honesty, reliability, and trust throughout every project.

02

Safety

We strictly follow safety regulations, protecting workers, property, and clients on all construction sites.

03

Engineering Excellence

We implement professional engineering practices that guarantee precise calculations, durable structures, and superior performance.

04

Quality Delivery

We use tested materials and expert supervision to ensure long-lasting, high-quality building results.

05

Transparency

We provide clear documentation, accurate costing, and trusted communication during every construction phase.

06

Innovation

We apply modern technology, advanced methods, and creative engineering solutions to improve construction efficiency.

OUR SERVICES

Building Construction

At Taewoo Limited, we deliver comprehensive building construction from foundation to completion, ensuring quality execution, safety compliance, durable structures, and functional spaces.

Civil Works

At Taewoo Limited, we execute civil works including earthworks, drainage, and infrastructure development with precision, durability, and adherence to engineering standards.

Renovation & remodeling

At Taewoo Limited, we upgrade existing structures through renovation and remodeling, improving functionality, aesthetics, and structural integrity while minimizing disruption.

Structural works

At Taewoo Limited, we deliver structural works focused on strength, stability, and load performance using quality materials and precise execution.

Project Management

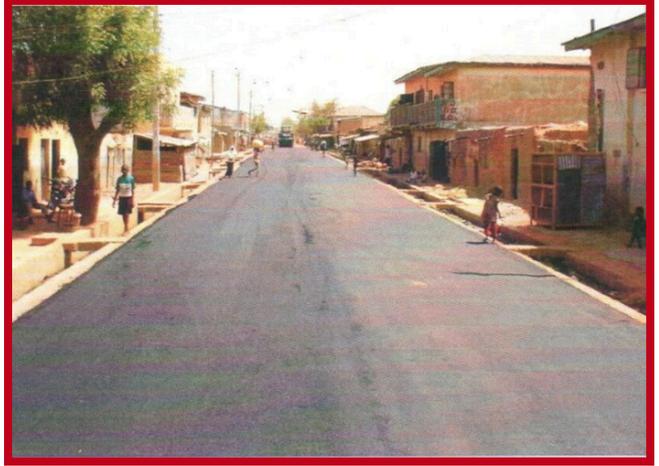

At Taewoo Limited, we provide end-to-end project management coordinating planning, resources, schedules, and stakeholders to ensure timely delivery and quality outcomes.

PROJECT HIGHLIGHTS

A showcase of selected construction projects demonstrating our technical expertise, execution capacity, and commitment to delivering quality, safety, and value-driven construction solutions.

OUR EQUIPMENT

Our equipment fleet supports efficient and precise project execution. We utilize modern, well-maintained machinery to ensure quality, safety, and timely delivery across all construction activities.

CONSTRUCTION PROCESS

A construction project requires careful planning and coordination because this stage forms the foundation for efficient execution, quality control, and timely delivery. Without a structured process, projects risk delays, cost overruns, or compromised quality, making systematic planning and disciplined implementation essential for achieving safe, durable, and reliable construction outcomes.

Planning

At Taewoo Limited, we analyze project requirements, define scope, allocate resources, and develop structured plans to guide efficient execution and successful project outcomes.

Execution

We implement approved plans through coordinated site activities, skilled workmanship, and effective supervision to ensure construction progresses safely, efficiently, and according to specifications.

Quality Control

We apply strict quality control measures, inspections, and standards compliance to ensure workmanship integrity, structural reliability, and consistency throughout every construction phase.

Delivery

We complete projects through timely handover, final inspections, and documentation, ensuring delivered structures meet client expectations, performance standards, and operational readiness.

Management Team

ENGR. 'NIYI O. TAIWO
Managing Director

Niyi, COREN registered, is an accomplished manager of men and resources in engineering construction services. Niyi holds a degree in Electrical Engineering from the University of Toulon, FRANCE. With a strong background as a Project Manager of high-valued projects, Niyi has led notable projects in building services and airfield lighting. His accomplishments include the Ajaokuta Steel Works administrative building, the national ID card project across multiple Nigerian states and several airfield lighting for SPDC, etc. Niyi played a vital role in the design of the Forcados fixed-wing runway airfield lighting system. As the Managing Director of Taewoo Limited, 'Niyi has continued to demonstrate exceptional leadership, overseeing remarkable projects such as the NPDC Head Office Benin, the NLNG Head Office Port Harcourt, and the complete rehabilitation of the Asaba Airfield Lighting. With his vast experience, unwavering commitment to excellence, and a proven track record, 'Niyi is highly valued by our shareholders.

ENGR. 'MUJEEB AKANNI OLUGBADE
Construction Manager

Mujeeb is a highly seasoned construction and engineering professional with over three decades of experience spanning project delivery, technical leadership, and strategic management across Nigeria, West Africa, and Europe. Trained in France as a structural and civil engineer with advanced management qualifications, his career trajectory reflects progressive responsibility—from site engineering and project control roles to senior executive positions such as Deputy General Manager (Technical), Project Director, and Technical Director. He has led major institutional, commercial, residential, and regional infrastructure projects, combining strong technical depth with commercial strategy, cost engineering, and multinational project coordination expertise.

IYIOLA TAIWO FOLAKE
HR/ADMIN Manager

Folake is an experienced HR Manager with a Master's degree from Aberdeen University, UK, and B. Tech degree from Ladoko Akintola University, Ogbomosho. She training in HR Data analytics, Compensation & Benefits etc. Her skills span personnel management, office administration, performance management, and employee training. Also, the coordinator of ISO 9001:2015 quality management systems (QMS):

NIYI M. TAIWO
Business Development Manager

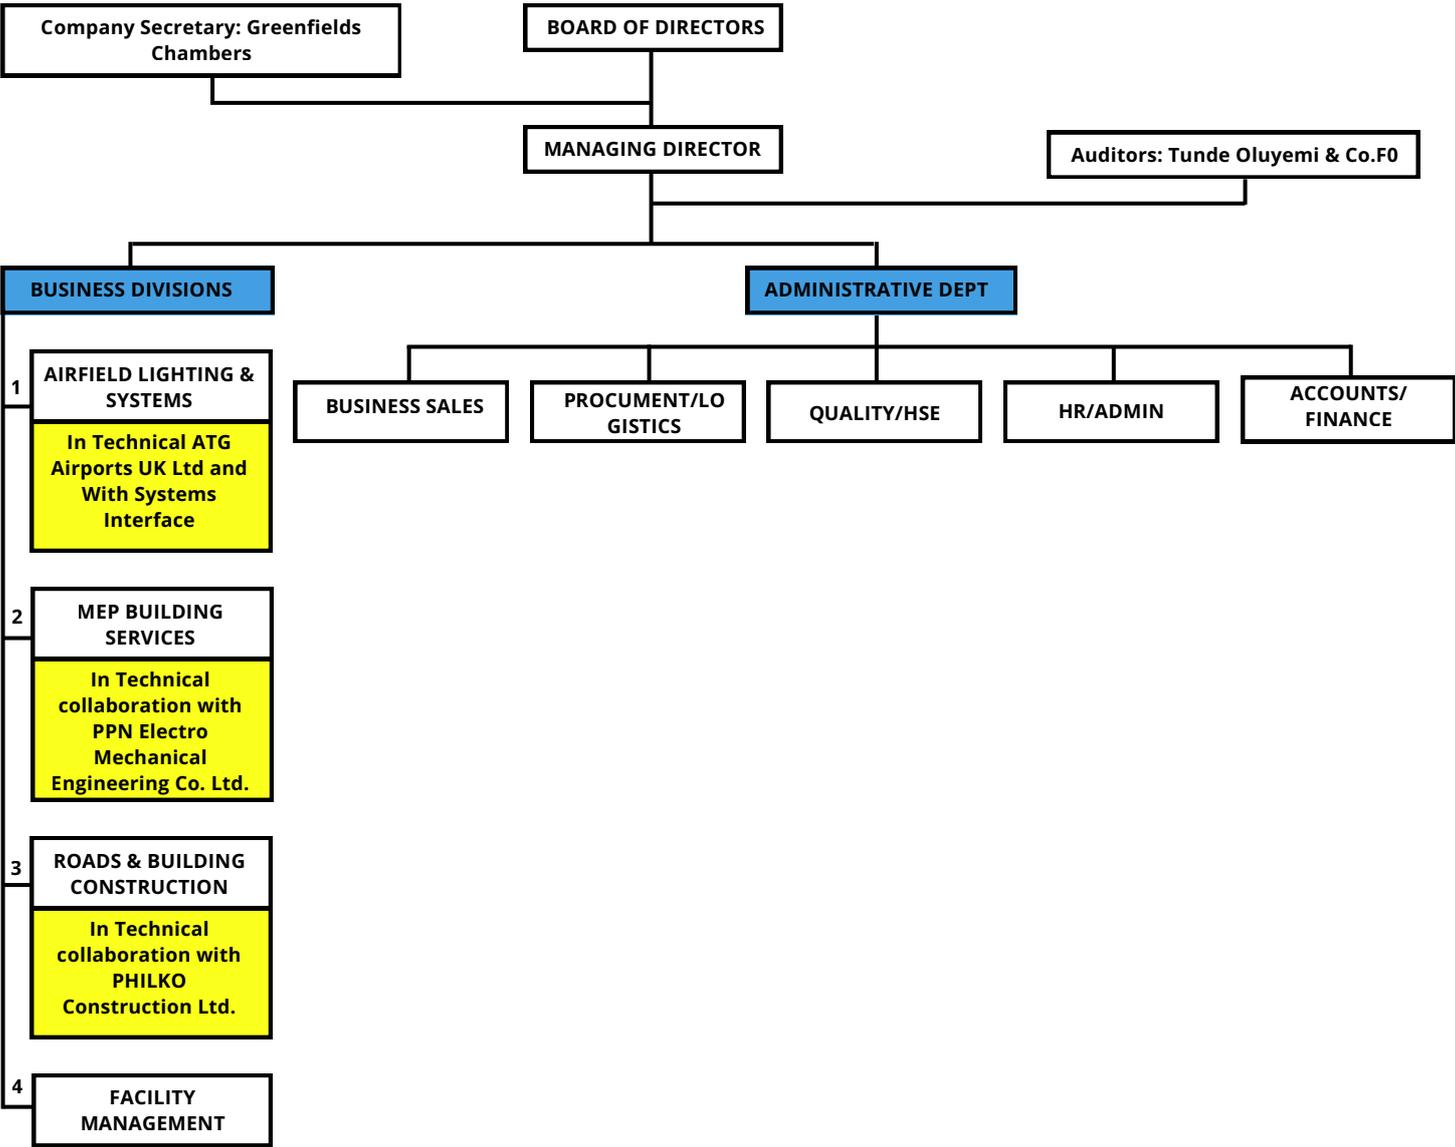

Niyi is a capable professional experienced in understanding complex client needs and delivering technically oriented solutions. With a real estate background from the Federal University of Technology Akure, he excels in presenting, planning, and driving change. Holding certifications in HSE, Data analytics, and Project Management, he is a valuable asset to the company. A recent MBA graduate in business Administration from the University of Canada West, Canada.

ENGR. KEHINDE OYEBODE GMNSE
Procuments/Logistics Manager

Kehinde, a graduate member of the Nigeria Society of Engineers (NSE) Ikeja Branch and a member of the Nigerian Institution of Electrical and Electronics Engineer (NIEEE), holds a background in computer engineering and an MSc in Information Technology from the University of Aberdeen. With a wealth of engineering experience, expertise in project management and training in contract management. Kehinde effectively oversees the company's sourcing and supply chain management.

COMPANY STRUCTURE

WHY CHOOSE US

Our construction approach combines technical expertise, disciplined execution, and quality-focused delivery to provide dependable building solutions that meet client expectations and project objectives.

STRUCTURAL DURABILITY

We build with reinforced engineering methods, ensuring strong, long-lasting structural performance always.

TIMELY DELIVERY

Well-planned project scheduling enables faster construction completion without compromising engineering quality.

PROFESSIONAL EXPERTISE

Experienced engineers and builders collaborate to deliver accurate, efficient, and trusted construction.

BUDGET TRANSPARENCY

Clear cost breakdowns guarantee honest pricing, eliminating hidden charges throughout every project.

SAFETY & COMPLIANCE

We maintain safe work environments and follow all regulatory standards across every phase of our construction projects.

QUALITY ASSURANCE

We enforce quality checks and material standards to deliver durable, reliable construction outcomes consistently.

CONTACT US

We welcome enquiries, project discussions, and partnership opportunities. Reach out to our team to explore how Taewoo Limited can support your construction needs.
